A block is defined as a group of properties bounded entirely by streets, public land, railroad rights of way, zoning district lines, corporate limit lines, or physical features such as rivers, outcroppings, ponds or lakes; provided that final delineation of a block shall be made by City staff. When determining the number of eligible properties on a block, the number shall be the lowest number that results in 30 percent or more of the residential lots being rental. The following table indicates how many lots are able to be certified as rentals based on the number of lots that exist on a block.
