How to Apply for Fire Extinguisher Public License, Certificates and Extinguishing System Certificates

How do I know which one I need?

Public License:

*Required

Any contractor or business who engages in the business of servicing, testing, maintaining filling, refilling, charging or recharging a fire extinguisher or fire extinguishing system unless licensed by the City to do so.

Master Certificate:

Shall authorize the holder thereof, when duly licensed, to engage in and carry on the business of servicing, testing, maintaining, filling, refilling, charging or recharging fire extinguishers

Journeyman Certificate:

Shall authorize the holder of such certificate to work at the occupation of servicing, testing, maintaining, filling, refilling, charging or recharging fire extinguishers under the supervision and direction of the person, firm or corporation licensed under the provisions of section 46.06

Special Certificate:

Shall authorize the holder of such certificate to service, test, maintain, fill, refill, charge or recharge fire extinguishers owned by his/her licensed employer for use on the employer's premises.
